

## 175x ro SCIP from Papros Inc

Papros offers direct conversions from various versions of 175x to the SCIP format.

For old formats of 1752A and 1754 wam1, some additional inputs are collected during the conversion process.

For the 1752B, the conversion is direct.

Availability is both through login as well as API.

After conversion, S2S (system to system) transfer service will also be offered as Papros offers this on a regular automated basis for energy data.

For prices of license, contact Papros Inc using the links provided.

See the link below for discussions on the SCIP format and how to prepare:
